## OUR BEER

---

### **AUGUSTINER . 5,6° . SMALL 0,2 CL 3,00 € . AVERAGE 0,5 CL 6,00 € . LITER 10,00 € (1°TAP)**

Since 13287 one of the most important of the 6 sisters of Monaco. A beer of velvety consistency with white foam, compact and persistent, with a full and balanced taste. It highlights a round body between the bite of the malt and the herbaceous of the hops.

---

### **MAES PILS . 5,5° . SMALL 0,2 CL 2,50 € . AVERAGE 0,4 CL 5,00 € . LITER 10,00 € (2°TAP)**

The Maes with its long tradition in the production of beer dating back to 1880, has created an excellent classic Pils characterized by a careful selection of the best raw materials, the hops is only and exclusively saazer saazer, one of the finest that gives this brew all the bitterness of a real Pils.

---

### **GUINNESS STOUT . 4,2° . SMALL 0,2 CL 3 € . AVERAGE 0,56 CL 5 € (3°TAP)**

Una leggenda narra che sia nata per errore in seguito ad un incendio nel deposito del malto a Dublino nel 18° secolo. Decisero così di provare a produrre utilizzando il malto bruciato/tostato. Venne così alla luce la più famosa Stout al mondo. Si riconosce dall'inconfondibile gusto di caffè e liquerizia, presenta inoltre una schiuma bianca opale e persistente.

---

### **BUCANIER GOLDEN ALE . 11° . SMALL 0,3 CL 6,00 € (4°TAP)**

A legend has it that it was born by mistake following a fire in the malt deposit in Dublin in the 18th century. So they decided to try to produce using burnt / toasted malt. Thus the most famous Stout in the world came to light. It is recognized by the unmistakable taste of coffee and liquorice, it also has a persistent opal white foam.

---

### **IPA/APA . SMALL 0,2 CL . AVERAGE 0,4 CL (5°TAP)**

This route is used in rotation with the best bitter beers in circulation in the IPA and APA style. This route is the hymn to hops from all over the world, from the most traditional British Indian Pale Ale to the well-known and now well-established American Pale Ale up to the newly born Italians. These beers are characterized by a good fresh and floral nose up to a dry and stimulating finish.

---

### **BLANCHE/WEISSE . SMALL 0,2 CL . AVERAGE 0,4 CL (6°TAP)**

Whether German or Belgian in nature, white beers are distinguished by their classic light opalescent color due to the suspended yeast parts. Both are characterized by a small hint of acid, a very fine and slightly spicy taste, a light alcohol content around 5 ° with a slightly dry finish. Belgian Blanches enjoy a good scent, often due to the addition of coriander and cardamom.

---

### **TRIPPEL . AVERAGE 0,3 CL (7°TAP) CLEAR**

This route is dedicated to Belgian Strong Ale, therefore to light beers with an alcoholic strength between 7 ° and 9 °. Slightly hopped, Trippel or Tripel was the name originally used in Belgium to describe their strongest beer; that of the "party", as it is defined in Belgium, is generally a beer with a good aroma that perfectly hides the bitterness and alcohol content.

---

### **DUBBEL . AVERAGE 0,3 CL (8°TAP) RED**

Classic Belgian beer or even Belgian Strong Ale, or even Bier Fort. In short, the one drunk every day in Belgium is red, with a good body, an abundant white foam of medium persistence. Its malty notes make it very little bitter and very pleasant on long winter evenings.
